FORK POSITIONER | Shift2end

Attachments

Weighing systems

Camera systems

Features:

- ▶ „Full Sideshift“ to the left and right
- ▶ Fork positioner for both extremely narrow and wide pallets
- ▶ Ideal for loading and unloading containers or trucks
- ▶ Up to 5,000 kg lifting capacity with a load center of 600 mm
- ▶ Adjustment within the frame width

FORK POSITIONER | Shift2end

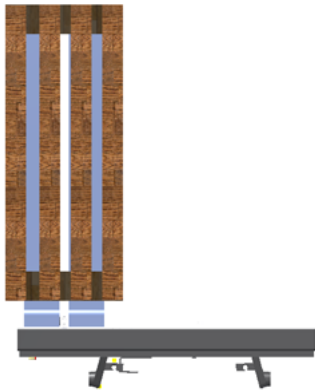

Adjustment within the frame width

Shift2end is the ideal forklift attachment for loading and unloading containers and trucks.

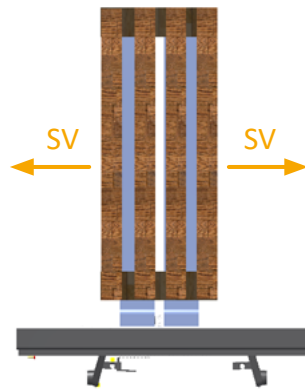

The combination of fork positioner and the enlarged sideshift make this attachment a universal implement for both extremely narrow and wide pallets.

The driver still has enough space to maneuver without touching the outer walls of the container or truck.

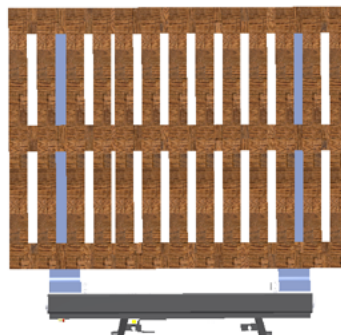

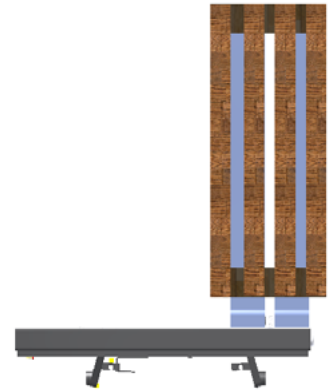

Sideshift for setting down or picking up on the far left

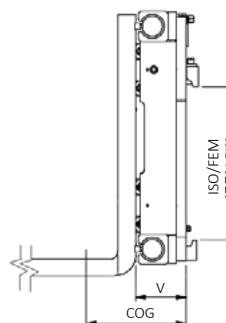

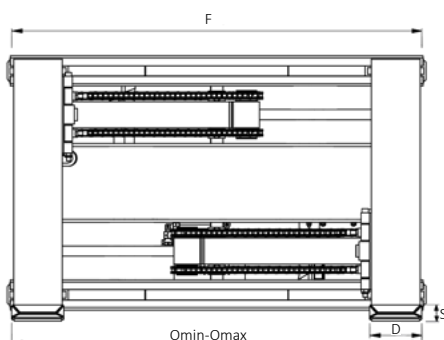

Pallet centered for transport

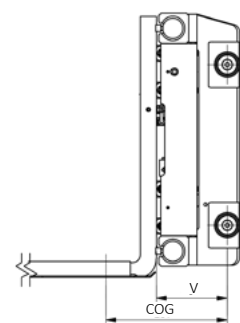

Sideshift for setting down or picking up on the far right

Picks up a wide pallet with maximum opening of the forks

As an attachment

Integrated in the mast

As an attachment with 'full sideshift' to the left and right fork length L=1150 mm (2 functions)
