Camera systems

Features:

- ▶ With integrated side shift
- ▶ For transporting large-volume and lightweight loads
- ▶ Reduced weight, lost load center, and center of gravity
- ▶ Free view frame with welded guides
- ▶ Lightweight arm design for secure gripping and damage-free transport

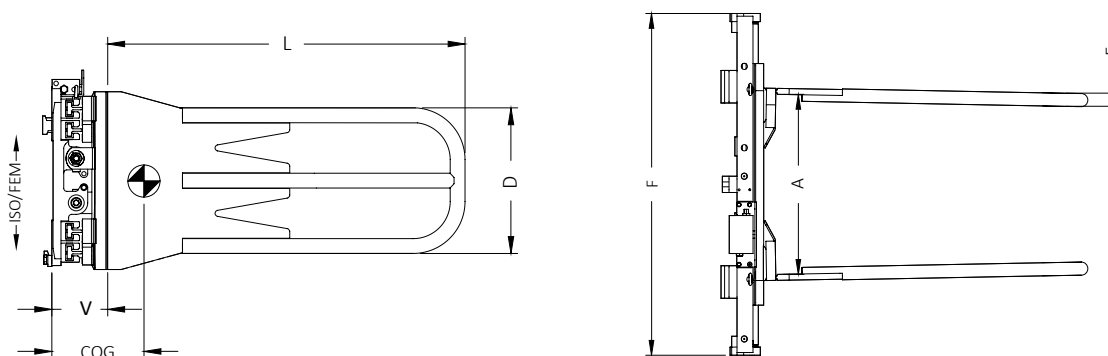

FOAM CLAMP | GPO-E

For pallet-free transport of items such as rubber or foam blocks

The GPO-E foam clamp is designed for pallet-free handling of large-volume yet lightweight loads, such as rubber or foam blocks. The extremely lightweight arm design ensures secure gripping and damage-free transport. The integrated side shift compensates for minor alignment inaccuracies. Excellent visibility is combined with reduced weight, lost load center, and center of gravity.

Features:

- › With integrated side shift
- › For transporting large-volume and lightweight loads
- › Reduced weight, lost load center, and center of gravity
- › Free view frame with welded guides
- › Lightweight arm design for secure gripping and damage-free transport

Foam clamp (2 functions, with integrated sideshift)
